THE PREZ SEZ

By Ed Thornley, WA6JHD

My fellow officers and myself wish to thank our membership for the confidence expressed in the recent election for 1971 officers. We will do our best to make your Club the best. If you have any suggestions on how we can improve the Club, its programs and other activities, please let us know!

At our recent executive committee meeting, it was agreed that our Club needs two new appointive officers - a publicity chairman and a membership chairman. These two slots need filling and I'm soliciting volunteers.

The publicity chairman will handle publicity for our monthly meetings and special events. It would be nice if he was also a photographer.

The membership chairman will be the key man in maintaining our membership records, recruiting new members, and assisting our executive committee in membership matters.

Volunteers for these spots can call me on 66117 - if it's busy, try again!

73's,

Ed

SECRETARY'S REPORT

At "press-time", our Secretary's minutes of the January 13th Executive Board meeting were still taking second place to more important Company business. They will be included in the February Crosstalk. One important action which occurred, however, was the President's appointment of Doug Freeman, WA6AZW, as Field Day Manager. Members should take note of the fact that next June will arrive quickly - Field Day is only about 20 weeks away. Call Doug now and volunteer your services to get first call for the key assignments.

NEWS AND NOTES

Congrats to Doug Freeman, WA6AZW, who recently made the big jump from Conditional Class to Advanced Class at the local offices of the Friendly Candy Company. Let's not hear any more complaints about crowded bands any more, Doug!

FEBRUARY CLUB QSO PARTY

The TRW Amateur Radio Club will hold a QSO Party the weekend of February 27, 28, 1971. Times are:

2000Z to 2400Z - 27 February
0200Z to 0600Z - 28 February (27 February local time)
1600Z to 2000Z - 28 February

All bands to 2 meters will be used as follows:

Phone	CW	VHF
28.680	28.080	50.25
21.380	21.080	145.35
14.280	14.080	
7.280	7.080	
3.980	3.580	

Call will be CQ - TRW - remember, five contacts with TRW/ARC members is worth a nice 8" x 10" certificate. To apply for yours, submit your contact list (Call, Date, Time, and Frequency) to:

TRW Amateur Radio Club
(address shown above)

We will be operating WB6WPO, the Club station, to its maximum capability during this QSO Party, hence we need operators at the Club shack. Here's a chance to get in a few hours of operating time. The last page of this issue of Crosstalk is a sign-up form for those of you who want to operate at the shack. Send it to Activity Manager Bill Dews pronto!

TUBES AVAILABLE

An anonymous donor sent the Club eighty-three used tubes, all of which check OK on the local Electronic Store's tester. They are in a box in the shack - F R E E - first come - first served. The following types are included:

Club Shack Work Party

Activity Manager Bill Dews has scheduled a work party at the shack on Saturday, January 23 at 0900 PST. The tentative agenda includes:

- 1) Complete installation of 40/80 mH antennae.
- 2) Coffee and doughnuts.
- 3) Connect 2/6 mH feed-lines.
- 4) Coffee and doughnuts.

All Club members are invited to participate. Signify your intentions by calling Bill in advance. If a delay occurs in publishing this issue so that you're reading this after the party is over, call Bill anyway and sign up in advance for the next one.
